WHEREAS, pursuant to SEQRA, the Agency has examined the EAF in order to make an determination as to the potential environmental significance of the Project; and

WHEREAS, the Project does not appear to constitute a "Type I Action" (as said quoted term is defined in the Regulations), and therefore coordinated review and notification is optional with respect to the actions contemplated by the Agency with respect to the Project; and

WHEREAS, the Agency desires to conduct an uncoordinated review of the Project and to determine whether the Project may have a "significant effect on the environment" and therefore require the preparation of an environmental impact statement;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF COUNTY OF CLINTON INDUSTRIAL DEVELOPMENT AGENCY, AS FOLLOWS:

Section 1. Based upon an examination of the EAF, and based further upon the Agency's knowledge of the area surrounding the Project Facility and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

A. The project (the "Project") consists of the following: (A) (1) the acquisition of an interest in an approximately 8.97 acre parcel of land located on Industrial Boulevard in the Air Industrial Park (Tax Map No. 220.-2-2) in the Town of Plattsburgh, Clinton County, New York (the "Land"), (2) the construction on the Land of an approximately 60,000 square foot building with associated site improvements, including, but not limited to, associated parking, loading docks, utility service connectors and storm water management facilities (collectively, the "Facility") and (3) the acquisition and installation therein and thereon of related fixtures, machinery, equipment and other tangible personal property, including without limitation, tenant improvement and finish (collectively, the "Equipment") (the Land, the Facility, and the Equipment hereinafter collectively referred to as the "Project Facility"), all of the foregoing to constitute a mixed use office, warehousing and manufacturing facility to be owned and operated by the Company and other directly and indirectly related activities; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the Act) with respect to the foregoing, including potential exemptions from certain sales and use taxes, real property taxes, real property transfer taxes and mortgage recording taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase) or sale of the Project Facility to the Company or such other person as may be designated by the Company and agreed upon by the Agency.

B. The only potential impacts on the environment noted in the EAF or otherwise known to the Agency, and the Agency's evaluation of the potential significance of same, are as follows:

1. It is not anticipated that the Project will have any adverse impact on threatened or endangered aquatic species or other plant or animal resources.

2. It is not anticipated that any archeological or historical resources will be impacted by the proposed Project.

3. It is not anticipated that the Project will result in the generation of traffic significantly above current traffic levels and, as a result, the Project is not expected to cause any significant adverse impact on transportation.

4. Although the Project will create storm water discharge, all utilities, including water and waste water will connect, and will not alter physically, or encroach into any existing wetland or water body. There is no significant issue with storm water runoff. Long or short term impacts are not expected, and the Project is consistent with the adopted Comprehensive Plan. Adjoining property should not effect this Project. Therefore, this potential impact will not be significant.

C. No other potentially significant impacts on the environment are noted in the EAF, and none are known to the Agency.

Section 2. Based upon the foregoing investigation of the potential environmental impacts of the Project and considering both the magnitude and importance of each environmental impact therein indicated, the Agency makes the following findings and determinations with respect to the Project:

A. The Project constitutes an "Unlisted Action" (as said quoted term is defined in the Regulations) and therefore coordinated review and notification of other involved agencies is strictly optional. The Agency hereby determines not to undertake a coordinated review of the Project, and therefore will not seek lead agency status with respect to the Project;

B. The Project will result in no major impacts and, therefore, is one which will not cause significant damage to the environment. Therefore, the Agency hereby determines that the Project will not have a significant effect on the environment, and the Agency will not require the preparation of an environmental impact statement with respect to the Project; and

C. As a consequence of the foregoing, the Agency has decided to prepare a negative declaration with respect to the Project.

Section 3. The Executive Director of the Agency is hereby directed to prepare a negative declaration with respect to the Project, said negative declaration to be substantially in the form and to the effect of the negative declaration attached hereto, and to cause copies of said negative declaration to be (A) filed in the main office of the Agency and (B) distributed to the Company.

Section 4. This Resolution shall take effect immediately.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

David Hoover	VOTING	YES
